GlamFace Program

Treatment Information Sheet

What is the GlamFace program?

We've put together a range of treatments to get your face the most beautiful it can be. These treatments range from intense hydration treatments to radiofrequency to tighten skin and stimulate collagen.

GlamFace treatments can:

- Stimulate collagen
- Reduce pore size
- Hydrate
- Even out skin tone
- Reduce redness
- Generate radiance
- Tighten skin
- Create a younger and fresher look
- Rejuvenate your face
- Make you glow

How soon will I see results?

The result of GlamFace treatments are often able to be seen immediately, and some also develop more over time.

This applies in particular to those treatments that stimulate collagen, since this is a cellular treatment.

Programs

- GlamFace – Dull Skin
- GlamFace – Large Pores
- GlamFace – Dehydrated Skin
- GlamFace – Redness Removal
