# Tattoo Away Program

## Treatment Information Sheet

### What is the Tattoo Away program?

Removing a tattoo is now less painful and faster than ever - but only when you have the best laser for the job and an experienced tattoo removalist.

We can remove all ink colours (except white) from all skin types using an experienced practitioner. We've been doing tattoo removal a long time.

### One-of-a-kind laser

- PiQ04 laser
- Faster than other lasers
- Less pain than other lasers
- One of the only clinics with this laser
- All ink colours
- All skin types
- Remove colourful tattoos
- Can remove large or small tattoos
- Can correct tattoo mistakes

### How soon will I see results?

You will have treatments as often as is practical for your particular tattoo. If your tattoo has a lot of colours, each treatment will focus on one colour, so fortnightly appointments will be made.

If you only have one colour, or the tattoo is small, longer may be required between treatments to allow the broken-up inks to be expelled from your skin.

Between treatments, the treated area will swell, scab up, and the ink will be expelled from your skin.
